EXPERIENCE

Head of Operations

2025 – Present

FoodServiceIQ

- Built and leads the company's operations function, directing and mentoring a three-person project management team responsible for client delivery, marketing execution, and cross-functional initiatives.
- Architected the company's operating backbone, developing and standardizing dozens of SOPs, workflows, dashboards, and templates across sales, CRM, client onboarding, implementation, reporting, and billing
- Partners with the CEO and leadership team to establish company-wide KPIs, operating cadences, and accountability systems, contributing to a 30% reduction in key client-process cycle times and a 15% reduction in operating costs
- Leads high-priority operational and client-facing initiatives from definition through rollout, serving as product manager for several core reporting and delivery products

Senior Project Manager

2024 – 2025

Success Academy Charter Schools

- Owned end-to-end delivery of dozens of concurrent web, digital, and print assets from creative brief to final launch for a high-volume in-house marketing team
- Orchestrated collaboration across external stakeholders, vendors, freelancers, and internal Studio teams, leveraging Monday.com and Google Workspace to keep complex workflows on track
- Anticipated and mitigated project risks before they escalated, safeguarding the accuracy, efficiency, and on-time delivery of every client deliverable

Project Manager

2023 – 2024

ConcentricLife

- Led day-to-day, in-house project management for a portfolio of global clients, partnering across internal and external teams to execute integrated marketing campaigns on time and on budget
- Built and maintained end-to-end project plans, timelines, and financial estimates for multiple fast-paced projects running in parallel
- Designed and implemented new workflow systems that reduced production time and consistently kept projects under budget
- Managed projects from concept through completion within Adobe Workfront, maintaining full visibility into status, resourcing, and deliverables

Project Coordinator

2022 – 2023

Wunderkind

- Launched cross-functional initiatives, including standardized request forms, reusable task blueprints, and process documentation, that streamlined collaboration and accelerated cross-team assignment turnaround
- Managed task workflows and coordinated logistics across the full sprint planning cycle, keeping agile teams aligned and on schedule
- Designed and refined executive-facing reporting that improved visibility into key performance metrics and sharpened accuracy in tracking department goals
- Analyzed project data and orchestrated team workflows in Wrike to drive data-informed prioritization and resourcing decisions

Program Coordinator

2021 – 2022

Project Sunshine

- Drove program and product management for Project Sunshine's virtual and in-person programs and their supporting systems, ensuring seamless delivery across formats
- Led short- and long-term projects within the Pediatric Experience team, consistently meeting and exceeding KPIs for program adoption and engagement
- Served as the key liaison between hospital partners, volunteers, and the Project Sunshine team, building trusted relationships and aligning stakeholders around shared goals
